

May 30, 2013

To whom it may concern,

Our team has been working with Superior Web Solutions Inc. (SWS) for over two years now and I can say with confidence that our decision to work with Michael Pankratov and his team of developers was one of the best business decisions we have ever made. They are nothing but fully accommodating to our busy schedules and have been great working with us until the finished product is exactly what we want. We're amazed at their programming and design ability, and there is no question if you can think of it, their team can bring it to life.

A decision to work with SWS would certainly be a great one. Expect nothing but great results, solid support, and an amazing group of professionals that will go well above and beyond to make sure you're completely satisfied.

Sincerely,

A handwritten signature in black ink, appearing to read 'Dan Miguel', with a stylized flourish at the end.
